The African American Historic Sites Tour of Vienna in support of the 13th and 14th Amendments

- *The 13th Amendment to the Constitution* abolished slavery within the United States, or any place subject to their jurisdiction, stating that neither slavery nor involuntary servitude except as a punishment for crimes.
- *The 14th Amendment to the Constitution* granted citizenship to all persons born or naturalized in the United States, including former enslaved people, stating that citizens shall not be deprived the right of life, liberty, and property without due process; or without equal protection of the laws, guaranteeing all citizens equal protection of the laws.

- In support of the 13th and 14th Amendments, our Liberty Amendments event will offer a historic virtual tour of the African American presence in Vienna from 1867 to 2006.
- Although there were African Americans (and other people of color) who were free before the Civil War who lived and owned property in Vienna, after the end of the War, more people of color and the former enslaved in Vienna were given the opportunity to own homes, have schools, and churches.
- All citizens, including the formerly enslaved, were given the right to due process and protections.
- This tour will offer you a glimpse of this community in Vienna, Virginia.
